How WE can serve YOU ?

JAPSON serves its customers in 3 ways:

1. Cooperation as Partner in Tenders .
2. Supply for local requirements of the Partner
3. As OEM manufacturer for Partner

Cooperation in Tenders

JAPSON, in partnership with its associates in different countries successfully quote and complete Global Tenders.

JAPSON has a commendable history of working on Government (Ministry of Education), UN, World Bank and other institutional tenders.

Supply for Local Requirements

JAPSON supply its customers with regular supplies for local School, Laboratory, Hospital and Dairy consumptions.

These include both On-demand and Stock orders.

JAPSON has a long list of satisfied customers which are procuring from us for many years.

As Original Equipment Manufacturer (OEM) for Partners

JAPSON use its production facilities to manufacture Items/Equipments for Partners under their respective Brands.

Thus we help our Partner to have “Advantage India”, ie. utilise low cost customized production capability of India with JAPSON Quality Control.

Our Customers

We cater to the need of dealers, institutions and Governments (Ministry of Education) all over the world. We currently have a presence in following countries:

- Singapore
